# ERIC C. GREEN

## Full Stack Web Developer

📞 951-553-3560    @ green.eric.c@gmail.com    🔗 https://github.com/ericcgreen

📍 Washington, DC

# EXPERIENCE

## Web Development Immersive Student

### General Assembly

📅 Jan 2017 - ongoing   📍 Washington, D.C.

Participated in a 500-hour full-time web development immersive course which taught me current front- and back-end technologies, programming languages, frameworks, tools, and methodologies used in today's market.

- Developed three individual full functioning apps each in specific coding languages and each under tight time constraints;
- Won an eight hour Hackathon sponsored by the French Embassy and hosted by General Assembly

## Third Party Department Manager

### Cox & Kings Global Services

📅 Feb 2016 - Dec 2016   📍 Washington, D.C.

- Managed a team of five staff members in the Third Party Clients Department, maintained the database, analyzed reports, tracked stats, and processed client invoices averaging $20,000 on a daily basis;
- Provided administrative support for a visa consulting agency contracted by the Embassy of India and servicing Indian nationals;
- Networked between departments as a Sales Force operator to fulfill upwards to 10 office project deadlines per day and satisfy customer needs aligning with company expectations

## Senior Branch Coordinator and ESL Teacher

### MIL: The Language Center

📅 Feb 2014 - Feb 2015   📍 Funabashi, Chiba, Japan

- Promoted to Senior Branch Coordinator to manage branch location and took on supervisory responsibilities of six teachers;
- Trained my fellow teachers in the Communicative method which increased classroom performance standards of over 130 students and six teachers;
- Taught basic, elementary, intermediate, advanced, and business English language to Japanese nationals

# EDUCATION

## Web Dev. Immersive

### General Assembly

📅 Jan 2017 - Apr 2017   📍 Washington, DC

## BA in Mass Media

### California State University San Marcos

📅 Aug 2009 - May 2013   📍 San Marcos, CA

# SKILLS

## Technologies and Methods

| | | | |
|---|---|---|---|
| HTML | CSS | JavaScript | Ruby |
| Ruby on Rails | Sinatra | MEAN Stack | |
| ReactJS | PostgreSQL | ActiveRecord | |
| RSpec | Git | ERD | TDD | CLI |
| Aglie Development | Wireframes | | |
| Heroku | Scrum | | |

# WEB DEV.  PROJECTS

## French Connection

🔗 https://goo.gl/NtvxSK

Competed in the French Embassy's Education Hackathon and won. Worked in a team of four to develop a pitch for a job recruitment app that utilizes a twitterbot built with NodeJS to attract users to our app. The pitch for the app was built with Wireframes.

## FarMart

🔗 https://cabralsylvester.github.io/Project3_FarMart/

Collaborated in a team of four to develop a farmers market post board app that uses Rails for an API back end and AngularJS for a front end.

## Safe Travels

🔗 https://wdi-safe-travels.herokuapp.com/

An independent project in which I developed an app to help travelers consider the importance of safety as a big part of their trip planning. This app was built with Ruby on Rails.

## Towers of Hanoi

🔗 ericcgreen.github.io/eric_green_project1/

An independent project in which I developed a puzzle game app with a Pokemon theme. This app was built using HTML, CSS, and Javascript.
